```

1. Screenshot output

2. Penjelasan dari code dan output (korelasi)

HTML Kerangkanya Menggunakan tag seperti `<nav>`, `<header>`, dan `<div>` untuk membuat struktur dasar seperti menu atas, sapaan utama, dan kotak-kotak konten.

Lalu untuk bootstrap ini Menggunakan sistem kelas bawaan seperti `text-center` dan `col-md-4` untuk merapikan posisi elemen secara instan, contohnya membuat teks berada di tengah atau menyusun tiga kotak agar sejajar.

untuk CSS nya Memberikan warna dan efek visual kustom, seperti warna oranye pada navbar, tombol toska, dan efek bayangan melayang pada kotak konten saat disorot cursor.
